Jobber Length 135° Split Point

Type 190-CN

135° Split Point, Jobber Length NAS 907B

Available in Letter & Wire Sizes
Sizes include: 1/16" - 1/16" by 64th

- ✓ Nitride coating creates a case hardened surface that is resistant to rust, heat and extends tool life.
- ✓ Cryogenic treatment at -300°F increases toughness while reducing brittleness.
- ✓ Excellent for Truck & trailer repair, and all MRO applications.
